Complete the answers to the questions below to complete your project report. Create a PDF of the completed document and submit the PDF with your project.

| Question | Your answer: |
|---|---|
| Step 2: Domain Choice What domain did you choose to fine-tune the Meta Llama 2 7B model on? Choices: <ol style="list-style-type: none">1. Financial2. Healthcare3. IT | IT |
| Step 3: Model Evaluation Section What was the response of the model to your domain-specific input in the model_evaluation.ipynb file? | The model is evaluated with the given dataset using IT domain and it evaluated the dataset using some sentence as input for estimating. |
| Step 4: Fine-Tuning Section After fine-tuning the model, what was the response of the model to your domain-specific input in the model_finetuning.ipynb file? | The model cant be able to fine tune due to restriction to access for text generation in the fine tuning but the required datas are estimated. |
